

CIRCULAR NO. DDPS-25/2021-22

DATED:- 24/07/2021

CLASSES:- 6TH TO 9TH

SUBJECT:-BOLT IOT TRAINING

Dear students

In the past year, technology has become a major part of our lives. Students have always been consumers of technology. On the bright side, now we have students who want to explore their potential by becoming creators of technology. *Bolt IoT (Inventrom Private Limited)* would want to provide a platform to the students of our Dhauladhar Public School for the same. They are offering *scholarships* for technical trainings such as Robotics, Web Development, Machine Learning, etc.

What are the steps to earn the Scholarship?

Step 1 : In the first step, students will have to answer a scholarship test, to be eligible for the scholarship. They will invite the selected students to join any of their trainings on 80% discount. Students are free to choose the training they want to enrol in upon qualifying. They charge a small fees to cover their costs and to ensure that only interested students join the program.

Scholarship link: for the students is <https://info.bolttiot.com/schoolscholarship>

Step 2 : Their team of developers will train the students on the concepts via online video training.

Step 3: Upon completion of the training, the students will be issued a training certificate with lifetime validity that they can use in the future as well.

Interested students can apply on the above given link .

Thanks & regards
Principal
